## PRESS RELEASE

PR# 08-02

### ALMONT POLICE UNVEIL NEW POLICE FLEET

**Almont, MI, Wednesday, March 18, 2008:** Almont Police unveils their new police fleet as their new patrol cars hit the road. The Dodge Chargers sporting the new color scheme have been placed in service. Citizens will now see a new Silver and Blue patrol car in place of the old white Ford Crown Victorias, as well as a new silver and blue Ford Expedition.

“The new Dodge Chargers will allow our officers to work in a safer and better equipped vehicle than in the past. The new vehicles offer more interior room and better handling and stopping characteristics.” states Chief of Police Pat Nael. “Our old fleet was on its last leg in some instances” said Chief Nael.

Chief Nael also stated “The new four wheel drive Expedition will allow our officers to respond to and better serve our citizens during inclement weather. “During snowstorms there is often a gap where roads are less passable while road crews work to clear them. The new four wheel drive vehicle will allow our officers to respond anywhere, even during those times”. “It simply allows us to better serve our citizens” added Chief Nael.
